Enjoy peace and quiet close to town

Picture perfect

Do you ever dream of a beautiful country estate that's close to town? Just a stroll to the river and miles from care?

Vacy Acres land estate has it all: the rural tranquility of the Hunter Valley, but close to Maitland and all the city's modern conveniences and amenities.

The 80ha development has 50 blocks to be released in four stages, with stage one registered and selling.

The masterplan is designed to bring together the best of both worlds: urban living combined with rural peace and quiet.

Views extend across a picturesque valley to spectacular mountains.

And only a minute away is the meandering Paterson River and the historic hamlet of Vacy, built in 1828.

At Vacy Acres, buyers can choose the land and build the house of their dreams with lots ranging in size 8094sqm, or two acres in the old measurement, to 11ha or 27.6 acres, and are priced from \$180,000.
